

## Desino TS

Infrared heater for private and commercial use

## Infrared heater Desino TS

Whenever it is there, your space is lit up with new emotions. It's DESINO TS the brand-new Infrared Radiant heater by TECHNOTHERM. The Smart solution, refined in Design and with ultramodern technology that will perfectly heat your space. Thanks to the Dual-Element Radiant heating system IR-B carbon, the low Glare infrared waves generated by DESINO TS provide energy-efficient warmth to your indoor or outdoor spaces blending seamlessly into your property's architectural style. Enjoy all year round the warm, soft and Low Glare light that really makes the difference.

He makes the  
different

**DESINO TS** Mid-wave infrared radiation provides a constant, direct and homogenous heat flow to your spaces. No annoying glow, highly tolerable, care for your skin. And it is much more comfortable than the traditional halogen heater. Simply the perfect mix of immediate heating effect and reduced brightness, to get more enjoyment out of your outdoor or indoor spaces, without interfering with the already existing ambient lighting atmosphere. **DESINO TS** Low Glare heaters that integrate LOW GLARE IR-B Carbon heating Technology: energy-efficient warmth and less light.

Desino TS mounted on the base heats effectively and comfortably up to 8 square meters.

**DESINO TS Remote** (sold separately) allows you to customize the comfort level on different zones of your commercial space in order to minimize electric consumption with the least effort. A simple and smart wireless control interface that gives you the possibility to adjust comfort of up to 6 heaters independently with just one remote control able to regulate intelligently the intensity of heat depending on the needs of each space.

Ideal even for bigger areas, **DESINO TS Remote** enables significant energy savings with the ability to adjust 2 different Power settings (1000W or 2000W) on each heater within a 20 meters range.
